

zip.ms — websites that open fast

Large print — 16 point. If you would like a bigger size, please ask.

This page uses short, clear words. It says the important things about zip.ms.

What I do

My name is **James**. I build websites.

My websites are **very fast**. They open in less than **1 second**.

The proof

Google tests websites. Google gives my website **100 out of 100**. That is the top score.

Slow websites lose visitors. **More than half** of people leave a website that is slow.

Always online

My websites are **always on**. They do not go down.

Another company checks this, day and night. **Not me**. You can see it live at zip.ms/scores.

Everyone can use it

My websites work for **everyone**. They work with screen readers and a keyboard.

There is a Plain English page and an Easy Read page.

Found on Google

My websites are built to show up on **Google**. So people can find your business.

Nothing to break

Nothing breaks. There are no plugins to update. It just keeps working.

Kind to the planet

My websites are very **small**. Small websites use less energy. That is kinder to the planet.

Your privacy

My websites do **not track you**. There are no cookie pop-ups. There is nothing to click away.

The price

The first demo is free. Then I tell you **the price**. It covers the design, the hosting and the updates.

There is no joining fee. You can stop any time.

You buy your own **website name**. It is yours to keep.

Try before you pay

First I make a **demo website** for you. The demo is **free**.

You look at it. You only pay if you want to keep it.

My work

I made this website. I also made a website for a business in Dover.

You can look at it at jcmwindowcleaning.co.uk.

Both websites are very fast. You can read the full story at zip.ms/work/jcm.

My scores

Google tests my websites. All my scores are on **one page**. Every score comes from Google, with a date.

See all my scores at zip.ms/scores.

Where I work

I live in **Dover**. I build websites for people **anywhere**. We do not need to meet. Everything happens online.

What about WordPress?

WordPress is a common way to build websites. It is good for big shops and blogs.

My websites are smaller and **much faster**. If WordPress is better for you, I will say so.

Talk to me

Send me your business name. WhatsApp is the fastest way.

My WhatsApp number is **+44 7943 044068**.
